WORK EXPERIENCE

Senior Marketing Manager | People Perfect
Sep 2025 – Present (Lahore, Onsite)

- Own end-to-end marketing for a multi-country HR services group: brand, PR, product marketing, content governance, CRM-led growth and B2B demand
- Lead a team of 4 direct reports and 2 freelancers across content, design, SEO and digital; manage a ~$10K monthly budget and ROI across campaigns, CRM and content
- Led product research and costing for 5 HR consultancy service lines for the company's upcoming HR services marketplace
- Run account-based marketing via LinkedIn Sales Navigator, targeting C-level leaders at UAE enterprises (500+ employees) and owners of large Pakistani FMCG businesses
- Recent B2B email campaigns reached a 60% open rate and 5%+ click-through
- Run Google, Meta and LinkedIn campaigns, plus Path2Progress, an event and webinar series for senior HR leaders
- Final authority on brand and content governance; leading the new company website and office wall branding
- Optimize Bitrix24 CRM workflows for lead visibility, lifecycle tracking and sales alignment
- Built 10+ human-approved AI agents and automations (Claude, ChatGPT, Zapier, Notion) for reporting and checks

Marketing Turnaround Project | Fast Food Restaurant, DHA Lahore
Jun 2025 – Aug 2025 (Lahore)

- Reversed a year of falling sales: +25% in month one, then a further +15% in month two (~44% above the starting point)
- Improved the burger menu, relaunched consumer campaigns and opened a B2B channel for nearby software houses

Marketing Manager | Creative Zone Tax & Accounting (UAE)
Dec 2022 – May 2025 (Lahore, Hybrid)

- Led integrated marketing for a UAE tax and accounting firm: brand visibility, demand generation and client acquisition
- Turned the new UAE corporate tax (2023) into clear Meta, LinkedIn and X campaigns: 20–40% sustained engagement growth
- Owned email marketing and automation; segmentation and A/B testing lifted open rates up to 35%

- Directed SEO-led content strategy, growing organic traffic by ~30% across blogs and landing pages
- Used SEMrush and Google Trends research to shape go-to-market plans, and reported insights to senior leaders

Senior Marketing Specialist | Soliton Technologies (Pakistan/US software house)
Sep 2021 – Nov 2022 (Lahore, Onsite)

- Built the marketing function from scratch: website content, blogs, email campaigns and social presence
- Led the company rebrand and the launch of a new website
- Built the employer brand: employee events, employee of the month, wall branding, merchandise and employee videos
- Built university partnerships and represented the company at industry and campus events
- Secured PR placements and shared performance insights with SEO, design and development teams via Looker Studio

Marketing and Advertising (Pvt) Ltd
Dec 2017 – Aug 2021 (Lahore, Onsite)

Marketing Executive *Dec 2017 – Dec 2018*

- Supported SMS campaigns and content for SME clients; built partnerships with bloggers and online publishers

Assistant Manager Marketing *Jan 2019 – Aug 2021*

- Led integrated digital, influencer and PR campaigns for 20+ brands, incl. Samsung, Unilever, Telenor and Honda
- Ran campaigns on X, Instagram, Facebook and LinkedIn with up to 500 influencers each
- Averaged ~27M impressions per campaign across social and influencer launches
- Coordinated PR agencies, bloggers, publishers and vendors; supervised teams through launches

SELECTED AI PROJECTS

MyndKeep: AI second-brain app *(personal build, 2026)*

- **Problem:** useful reels, posts and notes were scattered across apps, hard to find later and of unclear reliability
- **Saves anything:** links, PDFs, voice notes, screenshots, videos and text; AI categorizes each item automatically
- **Finds anything:** semantic search by meaning, not keywords; 200+ items saved, each with a 5-point trust check
- **Learns from feedback** given by text, voice or screenshot; built with Claude Code, GitHub and Render

Daily website health checker *(People Perfect)*

- **Problem:** broken links and pages on 6 company websites were being found by visitors before the team
- **Built** an automated checker on GitHub Actions that scans 92 pages and 10,000+ links every morning and emails a report; ~300 hidden issues found on the first run
